Heredity

Volume 57 Number 1 August 1986

Arun Kumar and J. P. Gupta
Linkage disequilibrium between two naturally occurring gene arrangements of *Drosophila nasuta* 1

Helena Korpelainen
Temporal changes in the genetic structure of *Daphnia magna* populations 5

A. O. Ruvinsky, A. A. Perelygin, Yu. I. Lobkov and D. K. Belyaev
Factors organising and maintaining polymorphism in a cyclic parthenogenetic species: *Daphnia pulex* 15

Pieter W. H. Heinstra, Wim J. M. Aben, Willem Scharloo and George E. W. Thörig
Alcohol dehydrogenase of *Drosophila melanogaster*: metabolic differences mediated through cryptic allozymes 23

Kevin Fowler and Linda Partridge
Variation in male fertility explains an apparent effect of genotypic diversity on success in larval competition in *Drosophila melanogaster* 31

K. K. Pandey
Gene transfer through the use of sublethally irradiated pollen: the theory of chromosome repair and possible implication of DNA repair enzymes 37

P. H. Cooke, J. S. F. Barker and P. D. East
Frequency and temperature dependent selection at the alcohol dehydrogenase-1 locus of *Drosophila buzzatii* 47

P. J. Brindley, S. He, P. Sitepu, W. A. Pattie and C. Dobson
Inheritance of immunity in mice to challenge infection with *Nematospiroides dubius* 53

P. H. Gouyon, Ph. Vernet, J. L. Guillerm and G. Valdeyron
Polymorphisms and environment: the adaptive value of the oil polymorphisms in *Thymus vulgaris* L. 59

L. Hilburn and P. W. Sattler
Electrophoretically detectable protein variation in natural populations of the lone star tick, *Amblyomma americanum* (Acari: Ixodidae) 67

B. N. Singh and Sujata Chatterjee
Mating ability of homo- and heterokaryotypes of *Drosophila ananassae* from natural populations 75

J. L. Bella, C. García de la Vega, C. López-Fernández and J. Gosálvez
Changes in acridine orange binding and its use in the characterization of heterochromatic regions 79

James A. Kolmer and Kurt J. Leonard
Loci independent of mating type that condition secondary sexual incompatibility in the fungus *Cochliobolus heterostrophus* 85

A. J. S. Chojecki, M. W. Bayliss and M. D. Gale
Genetic analysis of grain weight in wheat 93

David A. Jones, S. G. Compton, T. J. Crawford, W. M. Ellis and I. M. Taylor
Variation in the colour of the keel petals in *Lotus corniculatus* L. 3. Pollination, herbivory and seed production 101

Larry R. Hilburn and Paul W. Sattler
Are tick populations really less variable and should they be? 113

Book Reviews 119

Genetical Society Abstracts (15 and 16 November 1985 Meeting) 125

Volume 57 Number 2 October 1986

D. R. Govindaraju and B. P. Dancik
Relationship between allozyme heterozygosity and biomass production in jack pine (*Pinus banksiana* Lamb.) under different environmental conditions 145

V. L. S. Valente and A. M. Araújo
Chromosomal polymorphism, climatic factors, and variation in population size of *Drosophila willistoni* in Southern Brazil 149

Mauro Santos, Rosa Tarrío, Carlos Zapata and Gonzalo Alvarez
Sexual selection on chromosomal polymorphism in *Drosophila subobscura* 161

B. J. McAndrew, R. D. Ward and J. A. Beardmore
Growth rate and heterozygosity in the plaice, *Pleuronectes platessa* 171

J. W. Stubblefield and E. L. Charnov
Some conceptual issues in the origin of eusociality 181

Sirkka-Liisa Varvio, Ranajit Chakraborty and Masatoshi Nei
Genetic variation in subdivided populations and conservation genetics 189

Jeffrey V. Baumgartner
The genetics of differentiation in a stream population of the threespine stickleback, *Gasterosteus aculeatus* 199

Robin E. Owen
Gene frequency clines at X-linked or haplodiploid loci 209

Derek A. Roff
The genetic basis of wing dimorphism in the sand cricket, *Gryllus firmus*, and its relevance to the evolution of wind dimorphisms in insects 221

R. D. Ward, T. Warwick and A. J. Knight
Genetic analysis of ten polymorphic enzyme loci in *Littorina saxatilis* (Prosobranchia: Mollusca) 233

Jerry A. Coyne and Brian Charlesworth
Location of an X-linked factor causing sterility in male hybrids of *Drosophila simulans* and *D. mauritiana* 243

A. S. Wilby and J. S. Parker
Continuous variation in Y-chromosome structure of *Rumex acetosa* 247

H.-R. Gregorius, J. Krauhausen and G. Müller-Starck
Spatial and temporal genetic differentiation among the seed in a stand of *Fagus sylvatica* L. 255

J. P. M. Camacho and J. Cabrero
Cytological analysis of a spontaneous translocation heterozygote mosaic in *Chorthippus binotatus* (Orthoptera, Acrididae) 263

Book Reviews 267

Books Received 273

Genetical Society Abstracts (9, 10 and 11 April 1986 Meeting) 274

Volume 57 Number 3 December 1986

Michael J. Kohane and P. A. Parsons
Environment-dependent fitness differences in *Drosophila melanogaster*: temperature, domestication and the alcohol dehydrogenase locus 289

A. Dominguez and J. Rubio
Analysis of genetic factors affecting egg production in *Drosophila melanogaster* 305

G. C. C. Tai
Biometrical genetical analysis of tetrasomic inheritance based on matings of diploid parents which produce 2n gametes 315

Ian E. Lush
Differences between mouse strains in their consumption of phenylthiourea (PTC) 319

Denis Couvet, Francoise Bonnemaison and Pierre-Henri Gouyon
The maintenance of females among hermaphrodites: the importance of nuclear-cytoplasmic interactions 325

P. D. S. Caligari and W. Powell
The effects of competitive interactions on variances and on seed germination in spring barley (*Hordeum vulgare*) 331

Koji Murai and Koichiro Tsunewaki
Molecular basis of genetic diversity among cytoplasms of *Triticum* and *Aegilops* species. IV. CtDNA variation in *Ae. triuncialis* 335

H. S. Pooni and J. L. Jinks
Estimation of the true additive genetic variance $\sum_{i=1}^{k} d_i^2$ in the presence of linkage disequilibrium 341

David J. Innes, Steven S. Schwartz and Paul D. N. Hebert
Genotypic diversity and variation in mode of reproduction among populations in the *Daphnia pulex* group 345

Nick Barton and Bengt Olle Bengtsson
The barrier to genetic exchange between hybridising populations 357

E. Makov and A. H. Bittles
On the choice of mathematical models for the estimation of lethal gene equivalents in man 377

Larry Leamy
Directional selection and developmental stability: evidence from fluctuating asymmetry of dental characters in mice 381

M. J. Puertas, F. Baeza and A. de la Peña
The transmission of B chromosomes in populations of *Secale cereale* and *Secale vavilovii* 1. Offspring obtained from 0B and 2B plants 389

P. D. S. Caligari and J. Brown
The use of univariate cross prediction methods in the breeding of a clonally reproduced crop (*Solanum tuberosum*) 395

Orna Bergerson and David Wool
Genetic variation and the ability to colonise new niches in the flour beetle *Tribolium castaneum* (Herbst) (Coleoptera, Tenebrionidae) 403

C. G. N. Mascie-Taylor, J. B. Gibson and J. M. Thoday
Effects of disruptive selection XI: gene flow and divergence 407

N. H. Barton
The effects of linkage and density-dependent regulation on gene flow 415

Book Reviews 427

Index 433
